Thanks, Claudia. This approach sounds fine to me. I'm confident that you're deleting appropriately, but it's always good to have a backup copy.

Mike and Rick,

I had been deleting certain comments as it seems like they had been addressed by me or Mike in the Sharepoint version. I did save a version with all of Rick's comments if you need to see them again to verify. Let me know.

Thanks,

Claudia

Thanks, Rick. I've entered my responses to some of your comments and have made a few other edits. Claudia or others may have additional responses to some others, but I think as soon as you're ready tomorrow would be a good time to look at it.

That's fine. I've got calls the rest of the afternoon, so I don't need to review it today, but the sooner tomorrow, the better.

The one on Sharepoint should have them, but I did not get all the way through the document yet. I'll try to do so later today but am in meetings until midafternoon.

Mike,

Does the version on SharePoint reflect your responses to my prior comments, or is there a separate document that I need to look at? Thanks.

Rick

Subject: FW: U&O FIP: schedule

Importance: High

Hi Rick –

Thanks again for your review of the draft notice. I thought you'd want to see this update to the schedule. Counting today, I have six more days in the office before being out until after the New Year, so am going to try to wrap up all my work on this by then, including any more responses or discussions needed on any of your comments.

Hi everyone,

We learned yesterday from HQ that they are now expecting to finalize their national oil and gas rules in April 2016. Since have been planning on following the national schedule closely, we too are looking at accelerating our schedule for finalizing the U&O FIP. Please prioritize your FIP work to close out any outstanding items as soon as possible. If you need help from others or you are stuck on something, please let me know.

Thanks again to you all, for all of your great work on this effort!

Take care,

Dee
